AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

- 1. (Original) Attachment means for attaching a conductor to a hearing aid having a hearing aid housing with a hearing aid housing wall, said attachment means being adapted to be located partially in said hearing aid housing wall, so as to have a first part located in said hearing aid housing wall and a second part protruding through an aperture in said hearing aid housing wall.
- 2. (Original) Attachment means according to claim 1, wherein said first part comprises means for interlocking with the hearing aid housing in an assembled state thereof.
- 3. (Original) Attachment means according to claim 1, wherein said first part comprises means for interlocking with the hearing aid housing and a carrier for electronics in the hearing aid in an assembled state thereof.
- 4. (Currently Amended) Attachment means according to any one of the preceding elaimsclaim 1, wherein said second part is generally cylindrical and comprises a thread.

- 5. (Currently Amended) Attachment means according to any one of claims 1 to 3claim 1, wherein said second part comprises a catch means.
- 6. (Original) Attachment means according to claim 5, wherein said catch means comprises a barb.
- 7. (Original) Attachment means according to claim 6, wherein said barb is circumferential.
- 8. (Original) A hearing aid housing for a BTE hearing aid, said housing comprising a housing wall and an attachment means for attaching a conductor, said attachment means comprising an attachment means located partially in said hearing aid housing wall, so as to have a first part located in said housing wall and a second part protruding through an aperture in said hearing aid housing wall.
- 9. (Original) A hearing aid housing according to claim 8, wherein said hearing aid housing wall comprises means for interlocking with said attachment means.
- 10. (Currently Amended) A hearing aid housing according to any one of claims 8 or 9claim 8, wherein said means for interlocking with said attachment means comprises a recess formed in said housing wall.

- 11. (Original) A hearing aid housing according to claim 8, wherein said attachment means comprises means for interlocking with said housing wall and a carrier for electronics in the hearing aid.
- 12. (Original) A BTE hearing aid comprising a hearing aid housing with a housing wall and an attachment means for attaching a conductor, said attachment means comprising an interchangeable part having a first and a second part, said second part protruding from said hearing aid housing through an aperture in said housing wall.
- 13. (Original) A BTE hearing aid according to claim 12, wherein said hearing aid and said attachment means comprise mutually interlocking means.
- 14. (Original) A BTE hearing aid according to claim 13, wherein said second part of said interchangeable part comprises a generally cylindrical surface with an external thread.
- 15. (Original) A BTE hearing aid according to claim 13, wherein said second part of said interchangeable part comprises a generally cylindrical surface with at least one catch means.
- 16. (Original) A BTE hearing aid according to claim 14, wherein said catch means comprises a barb.

- 17. (Original) A BTE hearing aid according to claim 16, wherein said barb is a circumferential barb.
- 18. (Currently Amended) A BTE hearing aid according to any one of claims 16 or 17claim 16, wherein said barb is located at the distal end of said second part.
- 19. (Original) A locking means for securing a conductor to an attachment means of a hearing aid having a hearing aid housing, said locking means comprising a barb provided on said attachment means, and said locking means comprising an annular member adapted to be placed around said tube at a location registering with said barb.
- 20. (Original) A locking means according to claim 19, wherein said annular member comprises at least one internal recess adapted to register with said barb.
- 21. (Original) A locking means according to claim 20 wherein said internal recess is a circumferential groove.
